## MARCH DOWN

Private Forest Proudfoot of The 82nd acid pi Hospital in France Wishes County costs more

ing and hardships. Riemacourt, France, Jan. 12, '19.

As I have a lot of time to myself will write a few lines in regard to the forks back home as most of my thots are back to the dearest place on earth, Wauseon. I havn't met but one Wauseon boy since being over here and he has been working in Chicago for the past few years. His name is C. W. Losure. I suppose quite a few around town remmeber him, as we were recalling many old friends. After we were over here about five weeks in training the 83rd Divisions some went in the 26th, 3rd and 82nd. I was on detached service with the 82nd D v. Scouts and I believe I am the only Wauseon'an in the Division from Fulton county. but I got in with a swell bunch of fellows and the efficers couldn't be We sure went thru some hard fighting from the Toul sector to the finish. The 82nd went into the trenches on June 26th 1918 but I didn't get with them until July 30th and that was the beginning of my real war like experience, and from then on we were right after the Dutchman all thru the Argonne Woods and there is where the fighting was sure desperate but the Yanks were the candy kids or the devil hound's as the Germans called

I think old Fulton county has a fine record for service rendered dur-ing the war and when the boys all roturn will rea to the part she took think it would be a wonderful thing to have all the boys of Fu ton county in the A. E. I together and march up old Fulton street as that would give the people of the county a chance to se what an army Fu ton county had n France, and in regard to the

here as they were doing all their country asked of them, so they can feel to know they were ready at a moments notice to leave for the batte field. I have been in the hospital three months but am feeling fine and dandy again. The gas got was realy to quit The 82nd got n the Verdun sector September 26th and was in support until October 6th and the started over the top and was n until October 36th I guess most of us feared the "whizz bang" more you think of home-sweet-home.

I thank I will be home before long as I am transferred to the old 83rd Division again and expect to join them before the start home.

Hoping to greet you all back home soon I will close with best wishes to all.

## **GRANDMOTHER KNEW**

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of neustard. It is scientifically prepared, so that it works and yet does not blister the nderest skin.

Just massage Musterole in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears. Use Musterole for sord throat, bron-chitis, tonailitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and achea of the back or joints, sprains, sore muscles, bruises, chilbiains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size \$2.50.

Division Scouts Writing From Base high preed complete fertilizer will manure. do the r land the most good because it What element then is most lack-

THE RIGHT KIND OF

The right kind of fertilizer is a quostion bothering many farmers in Fulion County at this time too many finally buy the much recommended high priced so called and other parts of the animal body phores, 20 its of introgen and 20 ibs.

The right kind of fertilizer in preference to acid phosphate. In fact many farmers in fact many farmers in fact many farmers in fact many farmers are not to have the idea that the acid phosphate. In fact many farmers are not to have the idea that the acid phosphate in the straw and state is \$27.75. In one ton of the goods to the goods to the soil of phosphate should not be inced with companies that will not guarantee the mechanical condition of their is 320 ibs of phosphate should not be inced with companies that will not guarantee the mechanical condition of the possible of the soil of phosphate should not be inced with companies that will not guarantee the mechanical condition of the possible of the soil of phosphate should not be inced with companies that will not guarantee the mechanical condition of the possible of the soil of phosphate should not be inced with companies that will not guarantee the mechanical condition of the possible of the passible of the passible of the soil of phosphate should not be inced with companies that will not guarantee the mechanical condition of the goods had me revisantly stated in the first disease has wrought greater parents, physical directors, friends guarantee the mechanical condition of the possible of the passible of the passible of the goods had me revisantly stated by the passible of the goods had me revisantly stated in the first disease has wrought greater parents, physical need with companies that will not disease has wrought greater parents, physical man or revisantly stated in the form of the possible of the possible of the passible of the goods had me revisantly stated by the mechanical condition of the passible of t

egumes and by spreading barnyard manure and besides 20 lbs. of n trogen in a ton will not show much n Hospital in France Wishes County costs more.

A. E. F. Soldiers Might March Down Fulton Street Together.

Now, when our common grain plants such as corn, wheat and oats are in the majority of our soils? The mitrogen and ing a the majority of our soils? The way of results. The nitrogen and potash are costing you on the average potash are costing you on the average mail supplied in liberal quantities are malyzed we find that price are malyzed we find that price our crops will not do well because the Other low grade fertilizers are not the supplied in the majority of our soils? The mitrogen and potash are costing you on the average which the majority of our soils? the way of results. The nitrogen and

he looked into a little more carefully the farmers of Fulton Co., because it the present time we are having a lot of stuff that we don't need in or-

a people, to formulate and practice education less than people in urban in the past a comprehensive plan communities but the records of the of physical education. We quote draft board and health surveys do frequently and lustily, "An ounce not confirm this motion. In fact of preservation is worth a pound of these records show a higher percentager," but for the most part igners age of defective eve sight, defective

## **OUICK RELIEF** FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not constitution and participation and torpid livers. contain calomel, but a healing, soothing

vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to

normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two lit-tle Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every nig just to keep right. Try them. 10c a 25c per box. All druggists.
